

## Sewar Mohammed Abd Al-Rahman Siyam

Palestine - Gaza - Toffah district - nakeel street

(+970)568833020 | [sewarsiyam1@gmail.com](mailto:sewarsiyam1@gmail.com)

### Personal Details

- Date of Birth : 5 JUL, 2002
- Marital Status : Married
- Nationality : Palestinian
- ID number : 408061810
- Gender : Female
- Portfolio : <https://sewardev.vercel.app/>
- LinkedIn : <https://www.linkedin.com/in/sewar-siyam-44ba25170/>

### Professional Summary

Frontend Developer with over 3 years of experience in building modern, responsive web applications using React and Next.js. Skilled in creating interactive user interfaces with a focus on performance optimization and user experience. Successfully led multiple projects and developed complex dashboards using TypeScript and Tailwind CSS. Adept at collaborating with cross-functional teams to ensure seamless project delivery and high-quality outcomes. Demonstrated expertise in implementing best practices for scalable, maintainable, and accessible web solutions.

### Experience

#### Front-end Developer (*sadeim Company*)

(1 MAR, 2024) – (1 DEC, 2024)

- Lead the development of responsive web applications using React, Next.js, and TypeScript
- Implement modern UI/UX designs using Tailwind CSS and Bootstrap
- Integrate and optimize RESTful APIs using Postman
- Collaborate with backend team for seamless API integration
- **Key Technologies:** React, Next.js, TypeScript, Tailwind CSS, Git

#### Front-end Developer (*Handellt company*)

(MAY 2022) – (OCT 2023)

- Led the frontend development of a large-scale accounting project (Metronic) with Laravel backend
- Built dynamic user interfaces using Vue.js, ensuring responsive design and optimal performance
- Collaborated with UX/UI team to implement visually appealing designs
- Integrated complex APIs and ensured smooth functionality across the application
- Played key role in team coordination and technical discussions

#### Web Design (*skyTech company*)

(May, 2023) – (OCT, 2023)

- Led design and frontend development for the Metronic project using ASP.NET Boilerplate
- Developed responsive, mobile-first interfaces using Bootstrap 5
- Implemented UI/UX best practices for enhanced user experience
- Collaborated with cross-functional teams for seamless project delivery

## Web Design (Atyaf Company)

(JUN, 2023) – (AUG,2023)

- Completed university training program gaining hands-on experience in modern web development
- Applied Next.js for building scalable applications
- Designed and developed responsive dashboards from scratch
- Strengthened problem-solving and debugging skills through complex projects

## Education

Gaza Training College (GTC- UNRWA)

(2020 – 2022)

Diploma - Programming and databases

Web Developer

(2018 - 2020)

Abdelmoaty Alrayes Vocational Secondary School for Girls

## Training Courses

- **ETSx TOEFLx** (DES 2024) - Current  
edx
- **JavaScript Algorithms and Data Structures (Beta)** (DES 2024)  
FreeCodeCamp (300 hours)
- **Responsive web Design** (DES 2024)  
FreeCodeCamp (300 hours)
- **Graghic Design Diploma** (28 MAY,2023)  
Pixel center for information technology

## Skills

- **Frontend Development:** Proficient in building responsive, user-friendly interfaces using HTML, CSS, JavaScript (ES6+), and TypeScript.
- **Frameworks:** Expertise in React, Next.js, and Vue.js for creating dynamic and scalable web applications.
- **State Management:** Skilled in using Redux and Context API for efficient application state management.
- **CSS Frameworks:** Advanced knowledge of Tailwind CSS, Bootstrap 5, and Material UI for designing modern user interfaces.
- **API Integration:** Hands-on experience in consuming and integrating RESTful APIs and GraphQL endpoints.
- **Version Control:** Mastery of Git and GitHub for collaborative and streamlined version control.
- **Performance Optimization:** Proficient in optimizing web application performance, reducing load times, and ensuring cross-browser compatibility.
- **Testing Tools:** Experience with Jest, Postman, and Cypress for unit and integration testing.
- **UI/UX Design:** Strong understanding of user-centered design principles.
- **Problem-Solving:** Excellent troubleshooting abilities to resolve complex challenges efficiently.
- **Responsive Design:** Skilled in creating mobile-first designs to ensure compatibility across devices.
- **Collaboration:** Proven experience working with UX/UI designers, backend developers, and stakeholders.
- **Technical Tools:** Familiarity with tools like Visual Studio Code, Figma, and Microsoft Office
